To Mr Morris Carlton Troper  
Chairman European Executive Council  
American Joint Distribution Committee  
Paris

Before I leave Antwerp I take the opportunity to thank you once more sincerely for the cooperation we have received from you personally and the different Committees in organizing so efficiently the distribution of my passengers and with this helping to arrange their debarkation so speedily. The Rhebotis has taken the contingents for France and England already.

I am sure with this satisfactory ending I join the passengers with my personal thanks and appreciation for all you have done.

Sincerely

G. Schröder  
Captain
