

Index to the Case Files of the AJDC Emigration Service, Prague Office, 1945-1950

This index provides the names of clients served by the AJDC Emigration Service in Czechoslovakia in the years immediately following the end of World War II. It represents the contents of boxes 1-191 of the AJDC Prague Office Collection, held at the Institute for the Study of Totalitarian Regimes, Prague. The JDC Archives received a set of digital files of this collection in 2019 via the U.S. Holocaust Memorial Museum with the Institute's agreement. The index was created thanks to a group of JDC Archives Indexing Project volunteers and staff.

Users of this index are encouraged to try alternate spellings for names (e.g., Ackerman/Ackermann; Lowy/Loewy; Schwartz/Schwarz/Swarz/Swarz). Note that women's surnames may or may not include the suffix *-ova*. The "find" feature (PC: ctrl+F; Mac: command+F) may be used to search for names listed in the Additional Name(s) column that may be separated from their alphabetical order.

As case files contain private personal information, they are not open to the public. However, family members may request copies of the documents via our online [Request Information](#) form.
